EXPERIENCE

CRED, Product Designer

December 2021- Present

Just being a part of a team of extraordinary visual storytellers & design sorcerers, and helping design a super elegant payments app.

Accenture Interactive, Sr. UX Designer

July 2019- Dcemeber 2021

Designed and executed user-centric digital solutions and products across seven different projects in Accenture, including two proof of concept projects, all resulting in a better user experience and great recognition in the organization. Worked on multiple internal projects for the company as well, ensuing finer design strategies.

Freelance Product Designer

October 2019– Present

Delivered and designed products for multiple startups, Indian and international both. Guided them by creating a unique and aberrant design language right from their brand identity to illustrations, to even their digital applications resulting in great reviews from their customers and their respective investors.
